UPFRONT USE PACKAGES

Effective June 1, 2019 there are three available alternative compensation models: Upfront Plus, Upfront Flex and Upfront Digital.

- The following terms are the same for all three packages:
 - > Only advertising agencies and advertisers bound to our contract may use the Upfront Use Packages
 - > A one-year maximum period of use (MPU), based on first use or 13-weeks following the first production day, whichever is earlier
 - > Producer may not pre-negotiate for additional 1-year use terms at the time of original hire
 - > Session fee shall not be credited and is due 15 business days after the workday
 - Performers must be informed at the time of audition and at the time of hire which use payment structure the producer will be using
 - > Upfront Use payments are due within 60 calendar days of the first production day or 15 business days after first use, whichever is earlier
- Exclusivity: Applies only to Upfront Plus and Upfront Flex (The Producer may negotiate for exclusivity in Upfront Digital by obtaining performer consent and paying 4 session fees upfront).
 - > The first non-competitive product requires an additional 25% of all compensation (scale plus 25%)
 - > The second non-competitive product requires an additional 15% of all compensation (scale plus 40%)
 - > The third non-competitive product requires an additional 10% of all compensation (scale plus 50%)
 - > If there are over three non-competitive products then 200% of all compensation is due
 - > Upfront Plus Exclusivity is added to the session and use payments
 - > Upfront Flex Exclusivity applies to the session and 13-week use payments, not the guarantee

Upfront Plus

- For a one-year maximum period of use (MPU), a one-time payment to principal performers covers up to 10 Class A uses and unlimited use in all other media.
 - > On-Camera = \$20,000.00
 - > Off-Camera = \$15,000.00
- Beginning with the 11th Class A use, on-camera performers receive \$100.00 per use, and off-camera performers receive \$75.00 per use for the remainder of the MPU.
- New editing rules apply.
- Exclusivity example: If a performer is booked with two non-competitive conflicts, they receive \$28,000.00 for upfront use payment plus Class A uses beyond the first 10 paid at the rate of \$140.00 per use for the remainder of the year. (i.e. scale plus 40% of all compensation).

Upfront Flex

- For a one-year maximum period of use (MPU), principal performers are paid an upfront guarantee.
 - > On-camera = \$8,000.00
 - > Off-camera = \$6,000.00
- Each use type (ex: Cable, Wild Spot, etc.) has a set rate for each 13-week use. The rates for an on-camera performer are:

- > All Cable and Local Cable: \$3,400.00
- > All Wild Spot and Local Cable: \$2,000.00
- > All Digital (includes Internet, New Media, OTT such as Hulu): \$1,300.00
- > All Spanish Language: \$2,000.00
- > All Other Domestic Use (includes Industrial, Dealer, Unwired, Diginets, Class B and Class C): \$1,000.00
- > Class A: \$100.00
- > Foreign Use for English and Spanish regions are each paid at 60% of the traditional contract rate
- Use rates are deducted from the guarantee. Once the guarantee has been exhausted, the performer shall be paid for all use from that point forward.
- New editing rules apply.
- Exclusivity increases are applied to the use but not to the guarantee. For example, a commercial holding one non-competitive product that is used in "All Cable," the guarantee is still \$8,000.00, but 125% of \$3,400.00 (or \$4,250.00) shall be applied against the \$8,000.00 guarantee.

Upfront Digital

- For a one-year maximum period of use (MPU), principal performers shall receive payment for Internet, Over-the-Top (OTT) and New Media as follows:
 - > On-camera = \$3,825.00
 - > Off-camera = \$2,868.00
- Foreign use and Industrial use are each paid at 60% of the traditional contract rates.
- To move the commercial to television, producer must obtain prior consent from the principal performers and may use either the traditional contract rates or an Upfront Use Package.
- A producer may either freely bargain for edits per the traditional contract or pay one additional session fee to use the new editing provisions.

EDITING RULES FOR UPFRONT PAYMENT PACKAGES

There are three main types of edits under Upfront Packages:

- 1) UNPERMITTED
- 2) PERMITTED
- 3) PAID

UNPERMITTED is the easiest – it's considered a new spot and is paid as such. If the commercial as edited is not an exception under Permitted Edits or it doesn't fit under the guidelines for Paid Edits, it is an Unpermitted Edit.

PERMITTED EDITS include most of what is already allowed under the editing section of the traditional contract, with a few tweaks:

- Longer/Shorter Versions
- Legal/Network Requirement/Dealer ID/Tag Changes
- Rearrangement of On-Camera Material
- Changes to Off-Camera Message
- Foreign Language Voiceovers
- Special Offers & Promotions

Changes:

- > Longer/Shorter Versions: was 2, now 5; no more than 2 of the same length
- > Rearrangement of On-Camera Material: can run both at same time and/or in same market
- > Changes to Off-Camera Message: can run both at same time and/or in same market
- > Special Offers & Promotions: went from 2-week use limit to 6-week use limit

Shorter/Longer Versions: a :30 commercial for beer is created to show a pool party featuring only a portion of the cast. Later, a :60 is finished that features the entire cast.

	\$ 20,912.00
Class A (12)	\$ 200.00 (2 X \$100.00)
Upfront Plus	\$ 20,000.00
Session	\$ 712.00
OCP in :30 & :60	

Changes to Off-Camera Message: the end tag and VO describe Kim's Sassy BBQ Sauce as "hot and spicy" for the West Coast and "tangy" for the Midwest. The VO makes the changes; on-camera talent footage remains the same.

Session OCP	\$ 712.00	Session VO	\$ 535.30 (session + first tag covered by session)
Upfront Flex	\$ 8,000.00	Upfront Flex	\$6,000.00
Cable	\$ 3,400.00 †	Cable	\$ 2,550.00 †
Digital	\$ 1,300.00 †	Digital	\$ 975.00 †
	\$ 8,712.00		\$ 6,535.30

PAID EDITS allow a producer slightly more editing abilities as long as they pay principal performers an additional fee per edit.

What's allowed?

- A different product in the same product line beyond a tag change
- A different variant of the same product beyond a tag change
- Change the setting or add additional setting via CGI/green screen

For these types of edits, the performer would be paid as follows:

First Edit	1 session fee
Second Edit	75% of a session fee
Third Edit	50% of a session fee
Fourth Edit +	30% of a session fee

EXAMPLES:

Another Product in Same Product Line: a commercial features a Ford F-150 driving down a dirt road with a stack of wood in the truck bed is replaced with a Ford F-250 driving down a dirt road with no cargo. The end tags reflect different deals for each model. Same OCP driver in both. VO records original and tag change.

Session OCP	\$ 1,424.00 (\$712.00 X 2)	Session VO	\$ 535.50 (session + first tag covered by session)
Upfront Flex	\$ 8,000.00	Upfront Flex	\$ 6,000.00
Paid Edit	\$ 712.00 †	Paid Edit	\$ 535.50 †
Cable 2 cycles	\$ 6,800.00 †	Cable 2 cycles	\$ 5,100.00 †
Digital 2 cycles	\$ 2,600.00 †	Digital 2 cycles	\$ 1,950.00 †
(overage)	\$ 2,112.00	(overage)	\$ 1,585.50
	\$ 11,536.00		\$ 8,121.00

Different Variant of Same Product: a :45 spot for Armand's Curiously Strong Cat Litter features a cat (Mr. Baggins) doing his business in regular litter and when Cat Dad walks into the room he faints from the smell. Cat Dad immediately runs to the supermarket and purchases Armand's Curiously Strong Cat Litter and after Mr. Baggins uses it, Cat Dad inhales deeply and smiles. So fresh. A second :45 spot is created and in this edit, after Cat Dad inhales deeply and smiles, Mr. Baggins says "Now available in Mango Kiwi Scent!" A third :30 spot is created and in this edit, Mr. Baggins says, "Now available with CBD oil!"

Session OCP	\$ 712.00	Session Mr. Baggins	\$ Catnip
Upfront Digital	\$ 3,825.00		
1-Yr Exclusivity	\$ 2,848.00 (\$712.00 X 4)		
Paid Edits	\$ 1,246.00 (\$712.00 + \$532	1.00)	
	\$ 8,631.00		

Now let's talk about ADDRESSABLE, which is a type of editing rule but is really its own thing.

ADDRESSABLE EDITS are commercials specifically produced with multiple variations, which will then be dynamically inserted at the level of the individual or individual household. Footage/soundtrack used to make the edit(s) must be from the original production, and the edit(s) may not change the concept or message.

On-Camera Principal	One-time fee equal to 200% of the on-camera session rate.
	50% of the off-camera session rate for every Addressable Edit created if the off- camera principal renders services for the edit.
	If the off-camera principal does not render services, then they receive a one-time fee equal to 200% of the off-camera session rate.
	If the off-camera principal renders services on some, but not all, of the Addressable Edits, they shall receive both a one-time fee equal to 200% of the off-camera session rate and 50% of the off-camera session rate for every Addressable Edit created for which the off-camera principal renders services.
<u>Extra</u>	One-time fee equal to 50% of the unlimited use extra session rate.

What kind of changes can a producer make using footage from the same production?

- Different setting
- Different product, same product line
- Different variant of the same product beyond a tag change
- Wardrobe changes
- Prop changes
- Same scene, different take
- Principals swapping roles
- Principal replaced by principal
- Extra replaced by extra

Different product, same product line + principal replaced by principal:

Edit 1: a red Ford F-150 drives from one end of a small town to the other and the female driver waves at two townspeople as she drives through. The first townsperson is young girl at the beginning of town, sitting on a bench, holding an ice cream cone in front of an ice cream parlor. The second female townsperson is at the end of town, putting up a sign for her fruit stand. VO tag: sales offer. (3 on-camera principals, 1 VO, 25 extras as random townspeople shot from a distance.)

Edit 2: a blue Ford F-150 drives from one end of a small town to the other and the male driver waves at two townspeople as he drives through. The first townsperson is young girl at the beginning of town, sitting on a bench, holding an ice cream cone in front of an ice cream parlor. The second female townsperson is at the end of town, putting up a sign for her fruit stand. VO tag: sales offer. (3 on-camera principals, 1 VO, 25 extras as random townspeople shot from a distance.)

Edit 3: a white Ford F-250 drives from one end of a small town to the other and the male driver (same principal in Edit 2) waves at a male townsperson at the edge of town putting up a sign for his fruit stand. VO tag: lease offer. (2 on-camera principals, 1 VO, 10 extras as random townspeople shot from a distance.)

EXCLUSIVITY FOR UPFRONT PAYMENT PACKAGES

How is exclusivity calculated and paid under the Upfront Packages?

Upfront Plus

Original Conflict Area	Included in session, edits and guarantee (as it has always been under traditional contract)
1st Non-Competitive	additional 25% of all compensation (scale plus 25%)
2nd Non-Competitive	additional 15% of all compensation (scale plus 40%)
3rd Non-Competitive	additional 10% of all compensation (scale plus 50%)
4 or more Non-Competitive	200% of all compensation

3rd Non-Competitive	10% of session, edits, applied use (but not the guarantee) 50% total
4 or more Non-Competitive	200% of session, edits, applied use (but not the guarantee)

Upfront Digital

The Producer may negotiate for exclusivity in Upfront Digital by obtaining performer consent and paying 4 session fees upfront.

Let's use examples from above.

PAID EDIT. Another Product in Same Product Line: a commercial features a Ford F-150 driving down a dirt road with a stack of wood in the truck bed is replaced with a Ford F-250 driving down a dirt road with no cargo. The end tags reflect different deals for each model. Same OCP driver in both. VO records original and tag change.

Producer wants to hold "new auto sales/leasing" and "preowned auto sales." Auto sales/leasing is the original conflict area and preowned auto sales is the first non-competitive product conflict.

PERMISSABLE EDIT. Shorter/Longer Versions: a :30 commercial for beer is created to show a pool party featuring only a portion of the cast. Later, a :60 is finished that features the entire cast.

Producer wants to hold "beer," "soda" and "energy drinks." Beer is the original conflict area, soda is the 1st non-competitive product conflict, and energy drinks is the 2nd non-competitive product conflict.
