

TOOLS & RESOURCES FOR PRODUCERS AND EMPLOYERS DURING COVID-19

Revised as of May 11, 2021

SAG-AFTRA is committed to helping provide the tools and resources necessary to address the needs of our community during this unprecedented time. Please visit SAG-AFTRA's COVID-19 online hub for continued updates:
www.sagaftra.org/backtowork.

The FDA regularly updates a list of approved laboratories that conduct a COVID-19 test. Please visit that site as an additional resource: <https://www.fda.gov/medical-devices/emergency-situations-medical-devices/faqs-testing-sars-cov-2#offeringtests>.

Please be advised the information contained herein is provided for informational purposes and does not imply endorsement by SAG-AFTRA. SAG-AFTRA makes no warranties or representations, express or implied, regarding the use of the material or the quality of the services or service providers, including the suitability of any product or service for protecting against COVID-19.

TESTING

Strategic testing for the presence of COVID-19 is critical for a safe return to work. SAG-AFTRA requires RT-PCR testing, though a combination of in-lab and rapid solutions will be permissible in many circumstances.

Producers and employers should conduct all COVID-19 testing using the least invasive method of testing available. Please be advised that nasopharyngeal testing should be avoided unless it is the only approved method available.

Please see the following non-exhaustive list of resources on testing options. Please be advised this document is intended to provide general information and is subject to change without notice. Entities listed are not “approved” by SAG-AFTRA in any medical capacity; they are listed as solutions and vendors offering the required RT-PCR testing mechanisms.

TESTING SOLUTIONS:

Abbott ID Now:

- Abbott provides rapid PCR testing, but must be used subsequent to an in-lab PCR test.
- Contact: <https://www.abbott.com/IDNOW.html>

Abbott RealTime SARS-CoV-2 Assay

- Abbott’s RT-PCR lab-based COVID-19 test.
- <https://www.molecular.abbott/us/en/products/infectious-disease/RealTime-SARS-CoV-2-Assay>

Access Medical Labs:

- Access Medical Labs provides RT-PCR testing via nasal swab.
- Contact: www.accessmedlab.com

Accula SARS-CoV-2 Test:

- Accula provides rapid PCR testing, but must be used subsequent to an in-lab PCR test.
- Contact: www.mesabiotech.com

ANP Safety Consulting, LLC:

- ANP Safety Consulting, LLC provides saliva and mid-nasal RT-PCR testing with labs nationwide. ANP Safety Consulting, LLC provides online portal access and dashboard features for user management and communications.
- Price: please contact ANP Safety Consulting, LLC directly.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: neha@anpsafetyconsulting.com

ARCPoint Labs:

- ARCPoint Labs provides RT-PCR testing via nasal cavity or mouth.
- Price: please contact ARCPoint Labs.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: <https://www.arcpointlabs.com/covid-testing-options/>

Atlanta Health Systems:

- Atlanta Health Systems provides RT-PCR testing via nasal swab.
- Price: please contact Atlanta Health Systems directly.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: www.atlantahealthsystems.com
 - Katie Brannon, Katie@atlantahealthsys.com

Atlantic Diagnostic Laboratories:

- Atlantic provides RT-PCR testing options.
- Contact: <https://atlanticdiagnosticlaboratories.com/sars-cov-2-rt-pcr-testing/>

Atlas Labs:

- Atlas provides the lower nasal (anterior nares) PCR test.
- Price: \$110.00, not including shipping costs.
- Method: Tests are shipped to productions and once completed, shipped back to the facility. Atlas offers on-site testing options depending on the state and location of filming. Tests can be processed from all states except New York.
- Test Results: received within 24-48 hours from receipt of specimen.
 - Expedited same-day results available for \$160.00, not including shipping costs.
- Contact: www.atlas-genomics.com
 - Chris Destro at chrisdestro@atlas-genomics.com

Axiom Medical:

- Axiom Medical the PCR nasal and oral tests, with options to have on-site testing and shipment nationwide.
- Price: varies depending on the testing options.
- Test Results: received within 24-72 hours from receipt of specimen.
- Contact: www.axiomllc.com

BioIQ:

- BioIQ offers the PCR nasal and oral tests. Both tests are available, with options to ship test kits nationwide or have on-site testing provided.
- Price: averages \$150.00, with options of add-ons, including an online platform and portal.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: www.bioiq.com
 - Deborah Dean at DDean@bioiq.com

Bluestone Safe – PPS Health

- Bluestone Safe – PPS Health provides RT-PCR saliva testing with a capacity to test an additional 50,000 tests per day.
- Price: please contact Bluestone Safe – PPS Health.
- Method: Tests are shipped via FedEx to productions or individuals and once completed, shipped back to the facility.
- Test Results: received same day from receipt of specimen.
- Contact: Pejman Salimpour at psalimpour@salimpour.com
 - www.ppshealth.com/bluestone-safe/

Blackbird Group LLC

- Blackbird Group provides RT-PCR testing via nasal tests, and it's recommended to be administered by a medical professional.
- Price: please contact Blackbird Group directly.
- Method: Test kits may be shipped to productions and once completed, shipped back to the facility. Alternatively, the laboratory allows for mobile drop-offs or in-lab service.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: <https://www.blackbirdgroupllc.org/covid-19-rt-pcr-tests>

Bosch Vivalytic:

- Bosch provides PCR testing via oral swab, and has an in-lab option.
- Price: please contact Bosch.
- Method: Tests are shipped to productions and once completed, shipped back to the laboratory.
- Test Results: received within 3 hours from receipt of specimen.
- Contact: <https://www.bosch-vivalytic.com/en/product/vivalytic-tests/vri-multiplex-test/>

Carbon Health:

- Carbon Health offers PCR nasal testing, with options to have on-site/mobile testing.
- Price: please contact Carbon Health.
- Test Results: received within 4 hours, only for certain options.
- Contact: <https://carbonhealth.com/coronavirus>

CDT Solutions:

- CDT Solutions provides RT-PCR testing via saliva sample or nasal swab.
- Price: please contact CDT Solutions directly.

- Method: CDT Solutions offers on-site or on-set services. It can provide on-site collection and administration services nationwide.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: www.cdtsolutions.com
 - Sean Shea at sshea@cdtsolutions.com

CirrusDX:

- CirrusDX provides RT-PCR testing through a nasal swab.
- Price: please contact CirrusDX.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: <http://cirrusdx.com/>

CUE Health:

- Provides rapid point of contact molecular testing, that is conditionally approved.
- Contact: www.cuehealth.com

Curative Inc.:

- Curative Inc. provides oral swab test kits in mass quantities nationwide.
- Price: \$150.00 per kit, requiring a minimum quantity that can be discussed on a set-to-set basis. There is no insurance reimbursement.
- Method: Tests are shipped to productions and once completed, shipped back to the facility. Curative Inc. is able to provide mobile testing options only in Los Angeles, CA.
- Test Results: received within 24-36 hours from receipt of specimen.
- Contact: support@curativeinc.com or sales@curativeinc.com

Daybreak Health:

- Provides lab-based RT-PCR testing in the New York area.
- Contact: www.daybreak.health

Discovery Genomics:

- Discovery Genomics provides RT-PCR testing via anterior, mid-turbinate, or oral swab.
- Price: please contact Discovery Genomics directly.
- Method: Discovery Genomics provides on-site collection services, and can tailor to your needs.
- Test Results: Same day results, if received by 3:00 p.m., but a general test turnaround in 20 hours from receipt of specimen.
- Contact: www.discoverygenomics.com

EIS Consulting:

- EIS Consulting provides oral swab testing services nationwide and platform/interface services to help track testing.
- Price: Varies, but averages \$150.00 per test kit. If purchasing the user interface, an additional weekly or monthly flat fee applies.

- Method: Tests are shipped to productions and once completed, shipped back to the facility. EIS Consulting will be able to provide concierge mobile servicing in select cities.
- Test Results: 24 hours or less from receipt of specimen.
- Contact: www.eisconsulting.com
 - Bik Wong at bik@eisconsulting.com

Equaltox Laboratory:

- Equaltox provides RT-PCR testing

Essential Screening and Supply Solutions:

- ESS Solutions provides RT-PCR testing.
- Price: please contact ESS directly.
- Test Results: received within 12-28 hours from receipt of specimen.
- Contact: www.ess-solutions.com

Exceltox Laboratories:

- Exceltox provides nasal pharyngeal testing and oral swab test kits (PCR) in mass quantities, nationwide. Exceltox allows for reserving on committed capacities. On-site mobile testing options are available in California.
- Price: please contact Exceltox directly.
- Method: Tests are shipped to productions and once completed, shipped back to the facility.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: Jonathan Pittman at jonathan@exceltox.com

Exer Urgent Care:

- Exer Urgent Care various testing regimens, including RT-PCR. Exer is able to provide on-site testing solutions and has 20 clinics across Los Angeles and Ventura counties. Negative COVID test results can be texted to you and all test results are available in the Patient Portal.
- Price: please contact Exer Urgent Care with the number of tests needed and recurrence.
- Test Results: within 1 to 3 days
- Contact: Victoria Frazier at victoria.frazier@exerurgentcare.com or (818) 287-0894 ext. 178

Fulgent Genetics:

- Fulgent Genetics provides various testing options, including RT-PCR. Fulgent is able to provide on-site testing solutions.
- Price: please contact Fulgent.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: <https://www.fulgentgenetics.com/covid19>.

Genetworx:

- Genetworx offers PCR testing through an anterior nasal swab.
- Price: please contact Genetworx.

- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: www.genetworx.com

GenX Laboratories:

- GenX provides RT-PCR testing in-lab.
- Price: please contact GenX.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: <https://www.genxlaboratories.com/corporate-testing>.

Helix Laboratory:

- Helix offers a lower nasal (anterior nares) PCR test for self-collection.
- Price: please contact Helix directly.
- Method: self-collected by individuals with oversight from a healthcare professional.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: www.helix.com

Human Health Organization:

- Human Health Organization provides RT-PCR in-lab testing.
- Price: please contact Human Health Organization.
- Contact: www.humanhealth.org
 - Chris Debiec at cdebiec@gmail.com
 - (31) 880-7208

InterTrauma:

- InterTrauma provides RT-PCR testing via nasal swab.
- Contact: www.InterTrauma.com

Inspire Diagnostics:

- Inspire Diagnostics provides real time RT-PCR testing.
- Price: please contact Inspire Diagnostics directly.
- Contact: <https://inspirediagnostics.com/>

Lenco Diagnostic Laboratories:

- Lenco Labs provides options for real time RT-PCR testing.
- Price: please contact Lenco Lab directly, or through the applicable vendor.
- Contact: <https://www.lencolab.com/news/2020/3/lenco-diagnostic-laboratories-has-launched-coronavirus-disease-2019-covid-19-testing.html>

LetsGetChecked.com:

- LetsGetChecked provides lower nasal swab testing options nationwide via shipment options.
- Price: please contact LetsGetChecked.com.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: www.letsgetchecked.com

Middletown Medical:

- Middletown Medical offers PCR testing via Accula, which requires a subsequent in-lab PCR test.
- Contact: www.middletownmedical.com

ModMD:

- ModMD provides COVID-19 concierge services.
- Price: please contact ModMD directly.
- Type of test: PCR, mid-nasal swab.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: www.modmdla.com

My Concierge MD:

- My Concierge MD is specific to Los Angeles and provides on-site oral swab testing to large groups at time. On site testing, groups at a time.
- Price: please contact My Concierge MD, and note prices vary depending on result timeframe.
- Type of test: PCR.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: <https://www.myconciergemd.com/rapid-covid-19-testing/>

NK Max Health:

- NK Max offers RT-PCR testing via oral swab.

- Test Result: received within 24-48 hours from receipt of specimen.
- Contact: www.rtesting.com

Rapid Screen Services:

- Provides Health Canada approved in-lab RT-PCR
- Contact: www.rapidscreen.ca

Ready Set Care

- Provides in-lab RT-PCR testing solutions nationwide.
- Price: please contact Ready Set Care.
- Test Results: received within 24 hours from receipt of specimen or less.
- Contact: www.readysetcare.co

Reel Health:

- Reel Health provides in-lab PCR testing, using the lab MicroGen DX.

- Price: please contact Reel Health.
- Test Results: received within 30-48 hours from receipt of specimen.
- Contact: <https://reelhealth.com/contact/>

Set Medic Associates:

- Set Medic Associates provide RT-PCR testing and work specifically on entertainment productions.
- Price: please contact Set Medic Associates.
- Test Results: please contact Set Medic Associates.
- Contact: <https://setmedicassociates.com/>

SoCal COVID Solutions:

- SCS provides RT-PCR testing via mid-nasal swab. SCS has contactless concierge service as well as mobile on-site services.
- Price: please contact SCS directly.
- Test Results: received within 24-48 hours from receipt of specimen.
- Contact: info@socalcovidolutions.com
 - (713) 249-7080

Task Force Lab:

- Task Force Lab provides RT-PCR testing using the lab US Lab, Inc.
- Price: please contact Task Force Lab.
- Test Result: received within 24-48 hours from receipt of specimen.
- Contact: www.taskforcelab.com

TNG Diagnostics:

- Provides RT-PCR testing.
- Price: \$80 per lab-based PCR test, shipping included.
- Test Results: 24-36 hours from receipt of specimen.
- Contact: Josh Brammer
 - Phone: (910) 890-2334
 - Email: josh@tngdiagnostics.com

Trident Care:

- Trident Care provides mobile testing services, with an option for RT-PCR testing.
- Price: please contact Trident Care.
- Test Result: please contact Trident Care.
- Contact: <https://tridentcare.com/covid-2/>

Ultimate DX

- Ultimate DX provides oral and nasal PCR testing solutions.
- Price: please contact Ultimate DX directly.
- Method: self-collected by individuals.
- Test Results: received within 24 hours from receipt of specimen.
- Contact: <https://ultimatedx.com/contact-us/>

Visit Healthcare:

- Visit Healthcare provides mobile COVID-19 testing services, with a PCR option. Visit Healthcare uses the lab Universal Diagnostics.
- Price: please contact Visit Healthcare.
- Test Results: please contact Visit Healthcare.
- Contact: <https://www.visit-healthcare.com/>.

Vitalize Express COVID-19 Testing

- Provide in-lab RT-PCR testing on-site and can outsource larger orders
- Price: please contact Vitalize directly
- Test Results: received within 24 hours from receipt of specimen
- Contact: www.vitalizenaturalmedicine.com

TRAINING

The Safe Way Forward requires the creation of one new position and one new department: the Health Safety Supervisor/ COVID-19 Compliance Officer and the Health Safety Department. Please see below a training system and protocol that can be utilized for your production. Please be advised this document is intended to provide general information and is subject to change without notice.

Health Education Services:

- Health Education Services provides training to inform producers, coordinators, and others about on-set protocols related to COVID-19.
- Contact and Registration: <https://healtheducationservices.net/training/covid-19-compliance-officer-c19co/>

Phylmar Group:
