TOOLS & RESOURCES FOR PRODUCERS AND EMPLOYERS DURING COVID-19
SAG-AFTRA is committed to helping provide the tools and resources necessary to address the needs of our community during this unprecedented time. Please visit SAG-AFTRA’s COVID-19 online hub for continued updates: www.sagaftra.org/backtowork.

The FDA regularly updates a list of approved laboratories that conduct a COVID-19 test. Please visit that site as an additional resource: https://www.fda.gov/medical-devices/emergency-situations-medical-devices/faqs-testing-sars-cov-2#offeringtests.

Please be advised the information contained herein is provided for informational purposes and does not imply endorsement by SAG-AFTRA. SAG-AFTRA makes no warranties or representations, express or implied, regarding the use of the material or the quality of the services or service providers, including the suitability of any product or service for protecting against COVID-19.
TESTING

Strategic testing for the presence of COVID-19 is critical for a safe return to work. SAG-AFTRA requires in-lab RT-PCR testing solutions. Please see the following non-exhaustive list of resources on testing options. Please be advised this document is intended to provide general information and is subject to change without notice.

LABORATORY TESTING:

Abbott ID Now:
- Abbott provides rapid PCR testing, but must be used subsequent to an in-lab PCR test.
- Contact: https://www.abbott.com/IDNOW.html

Atlas Labs:
- Atlas provides the lower nasal (anterior nares) PCR test.
- Price: $110.00, not including shipping costs.
- Method: Tests are shipped to productions and once completed, shipped back to the facility. Atlas offers on-site testing options depending on the state and location of filming. Tests can be processed from all states except New York.
- Test Results: received within 24-48 hours from receipt of specimen.
  - Expedited same-day results available for $160.00, not including shipping costs.
- Contact: www.atlas-genomics.com
  - Chris Destro at chrisdestro@atlas-genomics.com
